

12-Methyltridecanal 10% in Myglyol

Code # - 1953593

Description: Cooked meat, tallow, meat broth, sweat.

Chemical Name:
12-Methyltridecanal

Synonym:

Formula: C₁₄H₂₈O

Molecular weight: 104.00

FEMA: 4005

CAS NO.: 75853-49-5

Flash point: >100

Organoleptic character	Stewed beef,Fruity
Recommended applications	meat cooked flavours,fruit flavours.
Recommended use level	0.5 ppm
Appearance	Almost colourless to very slightly yellow
Minimum purity	10%
Natural status	Nature Identical
Kosher status	Parve
Used in fragrances	No
