

## New Share Price Features

We are pleased to inform you that Givaudan's website now contains several new, interactive tools and features relating to our stock quote that we hope you will find useful. The following features can all be found under the **Stock Quote** section of the Investor Centre:

### **Share Price**

The share price is now provided by direct feed from Reuters. The market data is delayed by 20 minutes.

### **Share Charts**

You can now view price and volume data over a number of different periods with data going back five years. There is also a facility to allow comparative charting against the SMI.

### **Historic Download**

You can also download price and volume data as a Microsoft Excel spreadsheet with data going back five years.

### **Calculator**

The share price calculator enables you to calculate current value of a your holding as well as the change in value.
